Goal	The goal below has been saved for later.
Description	Optimum Customer satisfaction I want to achieve optimal customer satisfaction by being professional, reliable, disciplined and by maintaining a high quality and standard for the tasks that are assigned to me. This will in turn help me by being able to focus on improving their skill set and also help the organisation to maintain good relations with their clients.

Goal	The goal below has been saved for later.
Description	Upgrade technical skill set to become a more mature Full Stack Developer I would like to enhance my technical skills so that I can work efficiently on any tier of an application(EG: layers like Business logic,API,User Interface,Network etc). I am planning to take relevant trainings for this using the resources available on DXC University. This would also add additional expertise to the DXC talent pool and can help DXC in securing new clients
